Operations Manual

WARNING: Risk of fire, personal injury, and electric shock.

- 1) Please read all instructions and warnings included with this product before using.
- 2) Use only with included power adaptor.
- 3) This product is not a toy, for adult use only. It should not be played with or placed where children can reach it.

Logging into the ChromaBright App

The light strings can be controlled by using the push button on the control box or for the best experience, use the ChromaBright app on your iOS or Android smart device. To download the free app, use the QR code provided within this Philips Quick Start Guide, or search for "ChromaBright" on the iTunes App Store or Google Play Store.

No account login

Other ways to sign in

- 1) Open ChromaBright App on your device and start by creating an account if desired. (Note: the app can still be used without creating an account, but the connected light strings will not be saved to account for access on other devices.)
- 2) To create an account, enter a valid email and check for verification email. Follow instructions found in email to complete the sign-up process.
- 3) Proceed with connecting the light strings to the App.

Connecting the light string to App

- 1) First plug the power adaptor of the light string into a 110-125V wall outlet (when connecting multiple light strings, it may be easier to plug in 1 light string at a time during the light connection process).
- 2) In the upper right corner of the home screen, press the  button to search for new light strings.
- 3) App will search for new light strings within range. (Note: light strings need to be within 50ft of connecting smart device.)
- 4) If a new light string is found, it would be listed on this page.
- 5) You can now change the name of the connected light string and select the light string location. (Note: New locations can be listed by pressing the + button and adding the new location.)
- 6) Repeat steps 1-5 for each additional light string.

Operation

- 1) Change the lighting effects of the light strings with the app for the best experience or use the push button on the control box to cycle through some of the functions. (note: Curtain light push button only controls "On/Off")
- 2) Download the Operations Manual by scanning the QR code in this manual for more information on each feature.

Troubleshooting Tips

Please download the Operations Manual for troubleshooting tips.
